

SMP –SWIMMING POOL PUMP

The SMP range of swimming pool pumps are quiet pumps, suitable for a range of applications, including pumping sea water, water features, public pools, ponds, pumping chlorinated water, and water which may contain non-abrasive, small solids in suspension.

They are safe for use with liquid temperatures below sixty degrees. The SMP pumps are made with a shaft constructed with 410 stainless steel and IP55 rated motors. The two different models available are the SMP-10 and the SMP-20. They are both 230 volts. The SMP-10 has a flow rate of 300 litres per minute and a dry weight of 8.7kg. The SMP-20 has a flow rate of 450 litres per minute and a dry weight of 17.8kg.

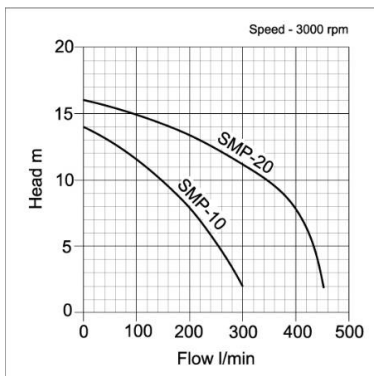

They have filter baskets which are removable and inspection covers. The SMP pumps are supplied with ABS pipe / pipe unions.

SMP-20

SMP-10

Suitable for:

- Private Swimming Pools
- Water features / Ponds
- Domestic
- Commercial
- Public Pools

Model	Inlet ABS (mm)	Outlet (mm)	kW	Volt	Flow (l/min)	Head (Mtrs)	W x l x h (mm)	Dry Weight	Packing Weight
